Design Development

**artistic hub builds
community**
a vibrant arts facility in the
heart of the southern interior

Dramatic, curvilinear, flowing and transparent, the design of the Kamloops Performing Arts Centre reflects the dynamic performances and art exhibitions the centre will host in downtown Kamloops.

A fully accessible space equipped to support a diverse range of arts and community events, the facility features an 1,100-seat main theatre and a 450-seat second theatre as well as a cafe, rehearsal halls, meeting rooms, commercial space, office space and underground parking.
