status

Complete

This project entails two 4-storey multi-family rental apartment buildings, which are located at the corner of 200th Street and 68th Avenue in Langley on a steeply sloping site. The units are a mix of 1-bedroom, 1-bedroom + den, and 2 bedroom units. In total there are 120 units between the two buildings. The 2 levels of shared underground parking will have a total of 190 parking stalls.

The exterior materials are a mix of Hardie flat panels, brick and aluminum cladding, which bring a modern design flare with minimal maintenance. The exterior colours compliment the adjacent buildings on the site, while bringing a fresh palette.
